PROFILE INFO

A frontend developer, tech enthusiast with creativity, scalability and responsibility. I'm experienced in leveraging the strength of Html, css, scss, bootstrap, java-script, reactjs, vue and restful API to build responsive and interactive websites/web apps. Always excited to learn some new tech and ready for challenges.

WORK EXPERIENCE

Frontend Developer-XLAB doo | June 2022 -30 Nov 2023
Responsibilities:
- Work in sprints in agile methodology, create and maintain front-end code for different projects applications (Vue, Angular, Hugo).
- Using bootstrap, scss and writing animations for making pixel perfect and responsive web apps and websites.
- Learned new Framework (Hugo) and migrated company's website from WordPress (PHP templating) to Hugo Framework (Golang templating).
- Contributed frontend implementation for EU's research and innovation funding programme (html, scss, vanilla java script).
- Cooperating with UX/UI design team understanding the need and functionality that has to be implemented
- Bug fixing and updating existing projects.
- Cooperating with other team members on common projects.
